FEMININE POWER

COACHING

TRACK

OVERVIEW:

The Feminine Power Transformational Coaching Certification

A 6-month training that will enable you to become a highly trained professional coach specializing in empowering self-actualizing women one-on-one as a coach with leading-edge transformational and Feminine Power tools.

Transformational coaching is a dynamic, growth-oriented relationship that creates a container for the client to tap into her deeper potentials, as well as question and release limiting assumptions, beliefs, and ways of being. This process expands the client's meaning-making frames and catalyzes new ways of being, which leads to the cultivation of new skills and capacities.

The Transformational Coach is an activator, catalyzer, power partner and evolutionary midwife, developing a co-creative partnership with the client in service of their self-actualization.

In addition to the above, as a Feminine Power Transformational Coach, you will be a role model to the ways of being and ways of orienting to life that give access to creative power.

You will bring a deep awareness and embodiment of the Feminine Power principles, as well as an understanding of how to overcome the unique challenges and opportunities facing women on their pathway to self-actualization.

Coaching outcomes include helping clients: improve their confidence, relationships, transform their health, discover their life's purpose, expand their leadership, impact and visibility, become more holistically empowered and step into the higher possibilities of their lives.

You will also have the opportunity to use branded Feminine Power materials in your work with women and/or gain permission to integrate Feminine Power practices into your own brand.

NOTE: While this program is designed as a comprehensive certification to become a professional coach, the skills you'll cultivate in this training are integral for personal development, leadership, entrepreneurship, and many contexts that don't require you to set up a coaching business to have tremendous value.

FEMININE POWER

LEADERSHIP

TRACK

OVERVIEW:

The Feminine Power Transformational Leadership Certification

The Transformational Leadership Program is a 9-month program especially for change-makers, creatives, entrepreneurs, trainers, speakers, teachers, coaches, workshop leaders, healers, executives, therapists, artists, leaders or visionaries. The program is designed to support you to discover the work you're here to do, who you're here to serve, launch it into the world (or reach the next level of impact) and grow into who you need to become to succeed, impact and serve at the highest level.

Did you know that only a small percentage of change-agents create the levels of impact and success that reach their true potential?

Coaching, facilitation, management and/ or creative skills are not enough to make the greatest difference with your gifts and succeed in terms of your reach, impact, and the revenue you're able to generate.

What separates those who actualize the potential of their gifts and impact isn't talent, nor is it dedication or hard work; it's a very specific learnable set of frameworks and cultivation of skills that will enable you to fulfill your life's highest purpose and mission, and reach a level of income and respect that reflects your true value.

To succeed, you need to cultivate the skills of the high-impact transformational leader.

This program is designed to not only support you to cultivate these skills but to apply them to your own work and throughout your time in the training to catalyze and launch the "Great Work" you're here to contribute.

In the program, you'll discover what your "Great Work" is and how to bring it forward. It's the work you came into this world to contribute to others that leverages the full spectrum of your gifts, skills, training, expertise and life experience into a context of contribution and service that has the greatest impact.

You'll also discover who you're here to serve -- your "Destiny Audience" -- those who most need what you have to offer, and who most resonate with the message and contribution you are here to share.

You'll discover how to create a context in which to give your greatest gifts to those who need it most, and you'll be supported to create a "Leadership Destiny Project" that will enable you to create a book, program, product, project, film, collaboration, or launch a business that can be a vehicle for your "Great Work" to gain unstoppable momentum.

With this foundation, you'll then become who you need to be to succeed. You will have cultivated the skills of the high-impact transformational leader, developed the ability to create things of high value and impact, and communicate in ways that move, evoke and inspire, as well as becoming a master collaborator, embodying the presence and mindset of someone who is a world-changing leader at whatever level you're called to serve.

WHO IS THIS TRACK FOR?

This is for you if...

- You sense you have a contribution to make and want to discover your life's work.
- You're already successful as a leader or coach, and want to get to the next level of impact, visibility and success.
- You're a coach and/or workshop leader (either practicing or in training) who is seeking support to discover and amplify your message and expand your reach to a wider audience.
- You're already a leader and you want to deepen your skills by learning transformational leadership skills and frameworks.
- You're an entrepreneur and want to bring out the best in others you collaborate with, as well as create things of high value and impact.
- You're an executive or manager of any kind who wants to contribute your gifts and experience more fulfillment, impact and success
- You're a creative or a leader in any context and want to be a highly effective communicator and collaborator.
- You want to focus 100% on your own personal development and self-actualization, and realize that gaining leadership and collaborative learning skills will enable you to attain an even deeper level of self-knowledge and mastery than a simple personal-growth program.

KEY TAKE-AWAYS:

- **Deep Transformational Listening Skills** including deep listening, clarifying, mirroring, paraphrasing, and summarizing.
- **Identified and Developed Your Unique Superpowers!** Gained clarity about what your true gifts, talents and genius are, so you can identify the work and message you're here to share that can have the greatest impact.
- **Discovered Your "Destiny" Audience and Built an Audience/Community** around your work by identifying and connecting with those who will most resonate with, need, receive, and value what you have to offer.
- **Launched Your Work into the World, Creating a Context/Platform/Momentum for Your Leadership Destiny**, gaining the support to launch a leadership project that can catalyze and create unstoppable momentum for your ongoing success as a leader, such as writing a book, launching a business, consultancy or negotiating a new role in the existing organization or new organization you work with.
- **Cultivated Listening Skills for Leaders**, including deep listening, clarifying, mirroring, paraphrasing, and summarizing that give you the awareness of the "listening you're speaking into" so that you can have generative collaborative conversations and craft communications that meet the mark every time.
- **Developed High-Impact Leadership/Influencer Communication Skills**, including speaking, writing and storytelling skills to motivate and inspire colleagues, teams, collaborators, and the audience you're here to impact.
- **Cultivated Winning Mindsets for Success, Prosperity, Influence and Impact** that all highly successful change-makers have embraced.
- **Developed Collaborative & Networking Skills**, including how to forge synergistic partnerships, establish successful collaborations, and navigate, negotiate and engage tensions and conflicts in ways that deepen alignment and creative power. Also, how to facilitate generative feedback in groups and teams, and how to own your evolution personally and professionally.
- **Cultivated High-Value Creativity: The Ability to Create Products, Programs, Projects** that create a tremendous amount of value for others and success for you.
- **Embraced the Skills of Successful Conscious Entrepreneurship** with the ability to monetize your mission and contribution with ease so that you can self-fund a great life, while you're doing great work.
